

CHABOT-LAS POSITAS COMMUNITY COLLEGE DISTRICT

September 21, 2010

Agenda Item: 5.4

Subject: Approval of Agreement - California State University East Bay Foundation (CSUEB Foundation), Chabot College

Background: After School Career Pathway planning grants are being funded by the Packard Foundation at several California State University campuses, among them California State University East Bay. The intent of these projects is to improve the quality and workforce in after school programs while creating career pathways for adults working in after school programs. The East Bay Career Pathway Project has a focus on creating a pathway to teaching with an emphasis in Science Technology Engineering and Mathematics (STEM).

The planning grant is intended to provide support for partners in conducting needs assessments, identifying local challenges, and identifying structures and processes for recruiting and serving a group of participants in an after school career pathway. During the planning grant period, Chabot College will work with various partners in the East Bay project to identify needs, challenges, and resources necessary for recruiting adults who are currently not on a college pathway, and creating a pathway for a group (cohort) to proceed through a program at Chabot College. The intention of the pathway is that eventually, students will transfer to California State University East Bay to complete a degree and teaching credential, thus completing a career pathway.

Chabot College will be a part of a larger collaborative group in the East Bay project which includes several partners such as the Alameda County Office of Education, community based organizations, workforce development boards, and representatives from other community colleges and California State University East Bay.

Upon delivery of a project plan, the CSUEB Foundation agrees to reimburse Chabot College up to \$14,000. Chabot College delivered such a project plan by the grant deadline of March 1, 2010

Recommended Action: That the Board of Trustees approves the proposed agreement with California State University East Bay Foundation for reimbursement of up to \$14,000 for the submittal of the college's project plan.
