## 1 **PREFACE**

This is an agreement (“AGREEMENT”) between lead agency Peralta Community College District (“PERALTA”), located at 333 E. 8th Street, Oakland, CA 94606 and Alameda Unified School District, Albany Unified School District, Berkeley Unified School District, Emery Unified School District, Hayward Unified School District, Oakland Unified School District, Piedmont Unified School District, San Leandro Unified School District, San Lorenzo Unified School District, and West Contra Costa Unified School District [“K-12 PARTNER(S)”] and Berkeley City College, Chabot College, College of Alameda, Contra Costa College, Laney College, Merritt College, Eden Area Regional Occupational Program, and Alameda Office of Education [“CC PARTNER(S)”], (collectively referenced as [“PARTNER(S)”]). PARTNERS include its officers, employees, consultants, subcontractors, and agents.

The effective date of this AGREEMENT is July 1, 2014 (“EFFECTIVE DATE”). AGREEMENT remains effective until it terminates on June 30, 2018 (“TERMINATION DATE”), as provided herein (collectively, “AGREEMENT PERIOD”).

This AGREEMENT is funded with the California Career Pathways Trust (“CCPT”) from the California Department of Education for the amount of fifteen million dollars (\$15,000,000). Funds for the CCPT have been appropriated as part of Assembly Bill 86, Chapter 48, Statutes of 2013, for the establishment of kindergarten through community college (K-14) career pathways programs.

*Whereas* PARTNERS agreed to participate in and supported the East Bay I-80/880 Consortium application for Career Pathways Trust (CPT) funding from the California Department of Education.

*Whereas* the future of our communities and regional economies is directly tied to the ability of education and industry to forge strong partnerships which build pipelines aligned to regional economic priorities.

*Whereas* the I-80/880 application responded to these priorities and the CPT RFA mandate to build robust partnerships between employers, schools, and community colleges, in order to better prepare students for the 21<sup>st</sup> century workplace and improve student transition into postsecondary education, training, and employment. The I-80/880 Consortium’s application proposed a collaboration between colleges, K12 school districts, and industry on deep pathway design that will identify relevant technical skills, course sequences, early career advising and matriculation, assessment, enhanced student support, career readiness training, and development of a regional system for linking employers to the classroom and student experience through a continuum of work-based learning opportunities.

*Whereas* the priority pathways identified in the I-80/880 application include health sciences, advanced manufacturing/engineering, information & computer technologies, digital arts, and public service and law.

*Whereas* the CPT RFA established clear deliverables and expectations for data sharing, regional intermediation, work based learning and other major infrastructure issues. PARTNERS agreed, per the bulleted list of expectations below, to comply with both the broad vision of our CPT application and all of the specific provisions of the CPT RFA released by the California Department of Education with the overarching goals that PARTNERS:

- Increase the number of students with access to standards-based academic curricula integrated with career-relevant sequenced curricula aligned with high-skill, high wage, high-growth jobs in our region,
- Increase the connectivity between employers and the classroom through a developmentally appropriate sequence of work based learning activities that increase in depth and complexity throughout the student’s academic career,
- Build intentional and collaborative support and transitions for students to help them move in a direct path from secondary to post-secondary enrollment.

*Whereas* the CPT grant will provide direct support for districts that will benefit both the districts and students, including direct support for pathway development and implementation, technical assistance and professional development to enhance pathway programming, assistance in the compliance with data sharing and evaluation to build a self-sustaining regional network for evaluation pathway programs, and support to help us build targeted support services and structures that enhance student achievement and their development of 21<sup>st</sup> century skills.

*Now, therefore* in consideration of the mutual agreement set forth in the AGREEMENT, the parties agree as follows:

## **2 SERVICES AND OBLIGATIONS**

PARTNER and PERALTA shall comply with the required elements established for the California Career Pathways Trust as indicated in Assembly Bill 86, Chapter 48, Statutes of 2013. (See Exhibit G: GRANT AWARD NOTIFICATION (GAN) LETTER)

### **2.1 PARTNER’S Obligations**

Increase the number of students with access to standards-based academic curricula integrated with career-relevant sequenced curricula aligned with high-skill, high wage, high growth jobs in our region.

Increase the connectivity between employers and the classroom through a developmentally appropriate sequence of work based learning activities that increase in depth and complexity throughout the student’s academic career.

Build intentional and collaborative support and transitions for students to help them move in a direct path from secondary to post-secondary enrollment.

PARTNER shall deliver outcomes as specified in this AGREEMENT and in Exhibit A—Work Plan and Outcomes (collectively, “WORK”).

## Relationship and Governance

- To enter into a legally binding MOU with the Peralta Community College District , which will include the provisions outlined in the Letter of Commitment and appropriate standard conditions and deliverables,
- That the provision of funding to PARTNERS is contingent upon meeting stated implementation, reporting, and evaluation requirements to be clearly stated in this Agreement developed between my district and the CPT lead agency,
- To provide representation to all consortium governance committees to which Partner is assigned including the Executive Committee, Consortium Workgroup, and other groups and task forces as agreed to by the consortium or required to remain in compliance with the grant requirements established by the California Department of Education.

## Staffing and Implementation

- Provide faculty or school leaders, who have demonstrated expertise and a track record of success in developing career pathways and driving student success, to collaborate with their colleagues in the CPT consortium school districts, colleges and industry partners in order to strengthen career pathway programs.
- Designate district personnel for planning efforts to establish a Regional Intermediary that will be responsible for engaging industry to: **(1)** advise career pathway programs so they meet current and emerging industry needs; **(2)** coordinate work-based learning opportunities for students among other functions to be determined; and **(3)** subsequently participate in periodic regional meetings to guide the CPT effort.
- Once the Regional Intermediary has been established and proven its value to the field, consider a financial commitment along with the other CPT consortium partners so that the work can be sustained beyond the CPT funding period – based on the Intermediary’s impact on career pathway programs’ effectiveness and on students’ preparation for college, career, and adult life.
- Ensure that faculty and school leaders access CPT-funded professional development that equips them to deliver effective career pathway programs via collaborative curriculum development, alignment with Common Core and Next Generation Science Standards, utilizing project-based learning and integrating 21<sup>st</sup> century competencies into academic and career-relevant instruction.
- Collaborate with staff from other LEAs, colleges, industry, and technical assistance providers, to finalize common course sequences in the targeted career pathways.
- Recruit a cohort of students each year that is broadly representative of overall district population, including students with special needs, for enrollment in each of career pathways, with the intent of steadily increasing the numbers of students who participate and succeed in these pathways.
- Ensure that classroom learning promotes students’ development of skills needed for success in 21<sup>st</sup> century workplaces – such as time management, collaboration, problem-solving, communication, leadership and analytic skills.
- Provide all students in pathways with opportunities for work-based learning experiences.
- Provide students with opportunities for concurrent enrollment in community college courses aligned with their career pathways while they are still in high school.
- Connect students with support services – such as college and career counseling,

educational planning, and health supports – to facilitate their success in their career pathway programs and education in general.

- Engage K-8 students and their families in college and career awareness and career exploration activities and assist students and families to select their high school pathways prior to 9<sup>th</sup> grade.

## **Evaluation**

- Comply with all data sharing and tracking requirements of the CPT grant and as required by this common agreement by the consortium on pathway participation and outcomes.
- Identify lead staff to work with the consortium to establish data sharing and tracking processes that can be sustained beyond the end of grant funding (anticipated to be CalPASS Plus/Launchboard).
- Participate in a pathway and course naming convention with Consortium Partners and agree to using those conventions (and related translation tables) when identifying and tracking pathway students and courses.
- Develop a Memorandum of Understanding with CalPASS Plus no less than 2 months after the grant start date to support the uploading and sharing of data through a common platform, perform regular uploads of appropriate data to CalPASS Plus (twice yearly) as well as an initial submission of at least five years of retrospective data to CalPASS Plus at the beginning of the grant.
- Understand that data submission is a fundamental requirement of participation in this grant, and that the lead agency reserves the right to withhold grant funds from PARTNERS until such time as successfully comply with these commitments and upload the required information.

As part of participation in the East Bay I-80/880 Consortium’s project, PARTNERS agree to maximize the use of resources independent of the CPT grant to strengthen career pathways and support the needs of students within them. Specifically, combined direct, in-kind, and other matching support for this grant will be approximately fifteen million dollars (\$15,000,000) over the 5 year project period. These resources will be used to support the project’s coordination, data gathering and sharing, collaborative planning, professional development, and services for students.

## **2.2 Requirements for Communication and Reporting**

PARTNER shall be required to submit an itemized invoice, and fiscal and progress reports in accordance with the schedule specified in Exhibit A—Work Plan and Outcomes and Exhibit B—Budget and Payment Schedule.

## **2.3 Invoices**

The reports shall include detailed description of significant outcomes of the project. Descriptions of activities should be related only to the tasks and scope of the project.

PARTNERS shall provide yearly progress reports and data to PERALTA to enable PERALTA's timely and complete submission to the State. PERALTA is required to submit yearly progress reports and one end-of-project report to show (1) student momentum points, (2) program outcomes measures, and (3) program deliverables are being met. Program data will be collected through a state-wide tracking system that is designed to document progress toward this goal by tracking student momentum points throughout the career pathways program.

In addition, PARTNER shall submit to PERALTA an end-of-project report on the project's goals, including evaluative evidence to support project successes and suggested strategies for program improvement. The format for these reports shall comply with California Department of Education contracting requirements. ## **EXHIBIT A: WORKPLAN AND OUTCOMES**

**Outcome #1 (LEA):** Number of students enrolled in the career pathways program will approximate 5,570 in the 2014-15 program year. This outcome will dovetail with work in 2014-15 to (1) come to a common definition across the Consortium of what specific components a career pathway program consists; (2) refine Tier system (see Section I.1) to rate each program's development and assist LEAs to identify and address gaps to fully build out their programs; and (3) develop a baseline of the number and percentage of all students in career pathway programs in each LEA, to help us fine tune goals for extending the reach of these programs and to plan programming accordingly. LEAs currently collect data on the number of students enrolled in their career academies and other pathways, but will have to refine this data collection so that it aligns with the shared definition of "career pathway programs" we establish.

**Outcome #2 (LEA):** We will use 2014-15 data to establish a baseline number of students participating in internships, WBL, mentoring, job shadowing opportunities, work experience, and student leadership activities as part of the career pathways program. This outcome relates directly to two key components of the Consortium's work in 2014-15: (1) defining a sequence for WBL activities to be used region-wide, and (2) building student leadership development activities into career pathways programs. We believe that building out career pathways so that students have opportunities for a sequence of WBL is at the heart of the initiative and our collaboration with industry to prepare students for college and careers. Again, LEAs do not yet intentionally gather data on these outcomes. We will, therefore, use 2014-15 to establish a baseline from which to inform programming, V.1 continued: Answer: set future outcome goals, monitor progress, and guide ongoing efforts.

**Outcome #3 (postsecondary):** Number of students enrolled in the career pathways program (as measured by the completion of their Student Education Plan-CTE Pathway) will approximate 8,417 during the 2014-15 program year and we will also measure their credits earned in either dual enrollment or credit by exam. Our colleges collect data on student enrollment in particular classes, dual enrollment, and student participation in various types of programs (certificate, degree, transfer), but we will have to further define what "enrollment in the career pathways program" means at the postsecondary level, and refine data collection accordingly. The projected number of enrolled students above will be nuanced by this definition and may rise or fall depending on how the Tiers of participation in pathways are defined. Review of historical data and current data from Cal-PASS Plus will help us establish a reliable baseline for this measure and assist us in setting goals and monitoring progress in future years. Dual enrollment and credit by exam are both important measures of the success of our efforts to create seamless transitions from secondary to postsecondary education and to enable students to have a head start in college that will increase their chances in completing the goals in their Education Plans. In 2014-15, our Consortium will develop systems for collecting and tagging the relevant data for these program measures (and the other CCPT outcome measures) that are not currently collected by school district and college student information systems. This will be part of our work to build infrastructure for data collection, program and outcome monitoring, and continuous improvement of the career pathway programs.
