In all contracts for work in connection with a HHSG project, the following clause (referred to as the Section 3 Clause), shall be included:

- A. The work to be performed under this contract is subject to the requirements of Section 3 of the Housing and Urban Development Act of 1968, as amended, 12 U.S.C. 1701u (Section 3). EXHIBIT E

PROPERTY MANAGEMENT STANDARDS

1. This attachment prescribes uniform standards governing the utilization and disposition of property furnished by the Federal Government or acquired in whole or in part with Federal funds by State and local governments. Federal grantor agencies shall require State and local governments to observe these standards under grants from the Federal Government and shall not impose additional requirements unless specifically required by Federal law. The grantees shall be authorized to use their own property management standards and procedures as long as the provisions of this attachment are included.

2. The following definitions apply for the purpose of this attachment:
 - a. Real property. Real property means land, land improvements, structures and appurtenances thereto, excluding movable machinery and equipment.

 - b. Personal property. Personal property means property of any kind except real property. It may be tangible -- having physical existence, or intangible -- having no physical existence, such as patents, inventions, and copyrights.

 - c. Nonexpendable personal property. Nonexpendable personal property means tangible personal property having a useful life of more than one year and an acquisition cost of \$300 or more per unit. A grantee may use its own definition of nonexpendable personal property provided that such definition would at least include all tangible personal property as defined above.

 - d. Expendable personal property. Expendable personal property refers to all tangible personal property other than nonexpendable property.

 - e. Excess property. Excess property means property under the control of any Federal agency which, as determined by the head thereof, is no longer required for its needs.

3. Each Federal grantor agency shall prescribe requirements for grantees concerning the use of real property funded partly or wholly by the Federal Government. Unless otherwise provided by statute, such requirements, as a minimum, shall contain the following:
 - a. The grantee shall use the real property for the authorized purpose of the original grant as long as needed.

 - b. The grantee shall obtain approval by the grantor agency for the use of the real property in other projects when the grantee determines that the property is no longer needed for the original grant purposes. Use in other projects shall be limited to those under other Federal grant programs, or programs that have purposes consistent with those authorized for support by the grantor.

 - c. When the real property is no longer needed as provided in a. and b., above, the grantee shall return all real property furnished or purchased wholly with Federal grant funds to the control of the Federal grantor agency. In the case of property purchased in part with Federal grant funds, the grantee may be permitted to take title to the Federal interest therein upon compensating the Federal Government for its fair share of the property. The Federal share of the property shall be

the amount computed by applying the percentage of the Federal participation in the total cost of the grant program for which the property was acquired to the current fair market value of the property.

4. Standards and procedures governing ownership, use, and disposition of nonexpendable personal property furnished by the Federal Government or acquired with Federal funds are set forth below:
 - a. Nonexpendable personal property acquired with Federal funds. When nonexpendable personal property is acquired by a grantee wholly or in part with Federal funds, title will not be taken by the Federal Government except as provided in paragraph 4a(4), but shall be vested in the grantee subject to the following restrictions on use and disposition of the property:
 - (1) The grantee shall retain the property acquired with Federal funds in the grant program as long as there is a need for the property to accomplish the purpose of the grant program whether or not the program continues to be supported by Federal funds. When there is no longer a need for the property to accomplish the purpose of the grant program, the grantee shall use the property in connection with other Federal grants it has received in the following order of priority:
 - (a) Other grants of the same Federal grantor agency needing the property.
 - (b) Grants of other Federal agencies needing the property.
 - (2) When the grantee no longer has need for the property in any of its Federal grant programs, the property may be used for its own official activities in accordance with the following standards:
 - (a) Nonexpendable property with an acquisition cost of less than \$500 and used four years or more. The grantee may use the property for its own official activities without reimbursement to the Federal Government or sell the property and retain the proceeds.
 - (b) All other nonexpendable property. The grantee may retain the property for its own use provided that a fair compensation is made to the original grantor agency for the latter's share of the property. The amount of compensation shall be commuted by applying the percentage of Federal participation in the grant program to the current fair market value of the property.
 - (3) If the grantee has no need for the property, disposition of the property shall be made as follows:
 - (a) Nonexpendable property with an acquisition cost of \$1,000 or less. Except for that property which meets the criteria of (2)(a) above, the grantee shall sell the property and reimburse the Federal grantor agency an amount which is computed in accordance with (iii) below.
 - (b) Nonexpendable property with an acquisition cost of over \$1,000. The grantee shall request disposition instructions from the grantor agency. The Federal agency shall determine whether the property can be used to meet the agency's requirement. If no requirement exists within that agency, the availability of the

property shall be reported to the General Services Administration (GSA) by the Federal agency to determine whether a requirement for the property exists in other Federal agencies. The Federal grantor agency shall issue instructions to the grantee within 120 days and the following procedures shall govern:

- (i) If the grantee is instructed to ship the property elsewhere, the grantee shall be reimbursed by the benefiting Federal agency with an amount which is computed by applying the percentage of the grantee's participation in the grant program to the current fair market value of the property, plus any shipping or interim storage costs incurred.
- (ii) If the grantee is instructed to otherwise dispose of the property, he shall be reimbursed by the Federal grantor agency for such costs incurred in its disposition.
- (iii) If disposition instructions are not issued within 120 days after reporting, the grantee shall sell the property and reimburse the Federal grantor agency an amount which is computed by applying the percentage of Federal participation in the grant program to the sales proceeds. Further, the grantee shall be permitted to retain \$100 or 10 percent of the proceeds, whichever is greater, for the grantee's selling and handling expense.

(4) Where the grantor agency determines that property with an acquisition cost of \$1,000 or more and financed solely with Federal funds is unique, difficult, or costly to replace, it may reserve title to such property, subject to the following provisions:

- (a) The property shall be appropriately identified in the grant agreement or otherwise made known to the grantee.
- (b) The grantor agency shall issue disposition instructions within 120 days after the completion of the need for the property under the Federal grant for which it was acquired. If the grantor agency fails to issue disposition instructions within 120 days, the grantee shall apply the standards of 4a(1), 4a(2)(b) and 4a(3)(b).

b. Federally-owned nonexpendable personal property. Unless statutory authority to transfer title has been granted to an agency, title to Federally-owned property (property to which the Federal Government retains title including excess property made available by the Federal grantor agencies to grantees) remains vested by law in the Federal Government. Upon termination of the grant or need for the property, such property shall be reported to the grantor agency for further agency utilization or, if appropriate, for reporting to the General Services Administration for other Federal agency utilization. Appropriate disposition instructions will be issued to the grantee after completion of Federal agency review.

5. The grantees' property management standards for nonexpendable personal property shall also include the following procedural requirements.

a. Property records shall be maintained accurately and provide for: a description of the property; manufacturer's serial number or other identification number; acquisition date and cost; source of

the property; percentage of Federal funds used in the purchase of property; location, use, and condition of the property; and ultimate disposition data including sales price or the method used to determine current fair market value if the grantee reimburses the grantor agency for its share.

- b. A physical inventory of property shall be taken and the results reconciled with the property records are least once every two years to verify the existence, current utilization, and continued need for the property.
 - c. A control system shall be in effect to insure adequate safeguards to prevent loss, damage, or theft to the property. Any loss, damage, or theft of nonexpendable property shall be investigated and fully documented.
 - d. Adequate maintenance procedures shall be implemented to keep the property in good condition.
 - e. Proper sales procedures shall be established for unneeded property which would provide for competition to the extent practicable and result in the highest possible return.
6. When the total inventory value of any unused expendable personal property exceeds \$500 at the expiration of need for any Federal grant purposes, the grantee may retain the property or sell the property as long as he compensates the Federal Government for its share in the cost. The amount of compensation shall be computed in accordance with 4a(2)(b).
7. Specified standards for control of intangible property are provided as follows:
- a. If any program produces patentable items, patent rights, processes, or inventions, in the course of work aided by a Federal grant, such fact shall be promptly and fully reported to the grantor agency. Unless there is prior agreement between the grantee and grantor on disposition of such items, the grantor agency shall determine whether protection on such invention or discovery shall be sought and how the rights in the invention or discovery -- including rights under any patent issued thereon -- shall be allocated and administered in order to protect the public interest consistent with "Government Patent Policy" (President's Memorandum for Heads of Executive Departments and Agencies, August 23, 1971, and Statement of Government Patent Policy as printed in 36 F.R. 16889).
 - b. Where the grant results in a book or copyrightable material, the author or grantee is free to copyright the work, but the Federal grantor agency reserves a royalty-free, non-exclusive and irrevocable license to reproduce, publish, or otherwise use, and to authorize others to use the work for Government purposes.

EXHIBIT F

FEDERAL WAGE DETERMINATION

(effective July 1, 2016)

[ONLY APPLIES TO CONSTRUCTION PROJECTS]

The Davis-Bacon Act (DBA) of 1931 requires the payment of locally "prevailing wages" and fringe benefits to laborers employed on any federally-funded construction, alteration, and/or repair contracts in excess of \$2,000. The DBA also applies to any public buildings, public housing, public works projects (e.g., streets, sidewalks, etc.), and to privately owned housing of more than 8 units (if CDBG-funded) or 12 units (if HOME-funded).

If applicable to this project, a copy of the federal wage determination that was in effect on July 1, 2016, is attached hereto and made part of this contract by reference. However, in accordance with HUD requirements, the most up-to-date wage determination(s) issued at the time of contract award (i.e., less than 10 days before the opening of bids) must be used. City staff will provide an updated wage determination as your project proceeds through the bid and contract process. The final wage determination must be made part of any construction contract(s) related to the project.
