Professional Development funds may be used according to AB 2558. Check the following AB 2558 categories that apply to your proposed activity and include a brief explanation (additional pages may be attached as needed):

- Improvement of teaching
- Maintenance of current academic and technical knowledge and skills
- In-service training for vocational education and employment preparation programs
- Retraining to meet changing institutional needs.
- Intersegmental exchange programs.
- Development of innovations in instructional and administrative techniques and program effectiveness.
- Computer and technological proficiency programs.
- Courses and training implementing affirmative action and upward mobility programs
- Other activities determined to be related to educational and professional development pursuant to criteria established by the Board of Governors.

Brief description of how your activity meets the above AB2558 Guidelines:

The main purpose of attending the APA conference is to improve my teaching and to remain up-to-date in my field. The APA conference will contain several days of presentations on present-day philosophical concerns along with proposed solutions to those issues. These presentations help me to remain current relative to the information that I studied in graduate school, and the information which I teach my students. In addition, I will attend conference sessions designed specifically to instruct professors in current teaching methodologies. Thus the conference serves both the update my knowledge and my teaching techniques, to the ultimate benefit of my students and the college.

Please fill out this page completely. Your responses will assist the Professional Development Committee with evaluating your proposal for approval. (This is not the required one page summary)

1. Describe how this activity ties in to your Program Review. Optional: Identify sections/pages of your Program Review that supports your staff development funding request.

Our program review specifically discusses the need to serve diverse populations of students. The teaching methodologies studied, as well as the broad cultural exposure to philosophical study around the world, helps in our pursuit of these goals.

2. Objectives and rationale of the proposed activity:

The main purpose of attending the APA conference is to improve my teaching and to remain up-to-date in my field. The APA conference will contain several days of presentations on present-day philosophical concerns along with proposed solutions to those issues. These presentations help me to remain current relative to the information that I studied in graduate school, and the information which I teach my students. In addition, I will attend conference sessions designed specifically to instruct professors in current teaching methodologies. Thus the conference serves both to update my knowledge and my teaching techniques, to the ultimate benefit of my students and the college.

3. How will this proposed activity benefit the college?

Professors who are up-to-date on their knowledge, learning new teaching methodologies for their field, and diversifying their knowledge base to global concerns, are better positioned to serve the students they encounter and, by implication, their students.

4. How do you plan to share what you have gained from the proposed activity with the college community, (i.e., present information at town meetings, division meetings, brown bag lunches, workshops, etc.)?

Each year I share the information I have learned with the other faculty in my cluster of disciplines. Some of the exchange occurs during the process of composing program review. Most of the exchange is verbal and informal.
