

CHABOT-LAS POSITAS COMMUNITY COLLEGE DISTRICT

**PROGRAM COORDINATOR – SCIENCE, TECHNOLOGY, ENGINEERING, AND MATH
(STEM)**

*Class specifications are intended to present a descriptive list of the range of duties performed by employees in the class. Specifications are **not** intended to reflect all duties performed within the job.*

SUMMARY DESCRIPTION

Under direction, oversee and coordinate Science, Technology, Engineering, and Math (STEM) program initiatives, partnerships, and opportunities including performing a variety of professional, technical, and administrative duties; exercise independent judgment within scope of authority; assume responsibility for program coordination, implementation, monitoring, tracking, and reporting; and establish, maintain, and facilitate effective working relationships with academic and industry partners that lead to sustainable and lasting high quality STEM opportunities for faculty and students.

REPRESENTATIVE DUTIES

The following duties are typical for this classification. Incumbents may not perform all of the listed duties and/or may be required to perform additional or different duties from those set forth below to address business needs and changing business practices.

1. Coordinate with STEM program, Dean, faculty, and staff to plan and conduct ongoing outreach and recruitment of partner academic and industry organizations to contribute to STEM program initiatives, partnerships, and opportunities; coordinate campus activities related to STEM program initiatives, partnerships, and opportunities, including related employer recruitment and engagement.
2. Identify, outreach, schedule, and implement appropriate STEM program initiatives, partnerships, and opportunities, such as internships, faculty externships, industry and educational site visits, job shadowing, guest speaker events, mentorships, pre-apprenticeships, soft skills development, resume building, and interview preparation.
3. Serve as liaison between academic and industry partners and faculty to develop, maintain, track, and provide initial follow-up to leads generated from various sources; provide support for organizing industry advisory committees for STEM program initiatives, partnerships, and opportunities on behalf of the college.
4. Track performance of all STEM program initiatives, partnerships, and opportunities; maintain database of internships, apprenticeships, and other related STEM program initiatives, partnerships, opportunities, and contacts in collaboration with the Career and Transfer Center; assume responsibility for monitoring, tracking, evaluation, accountability, and reporting requirements.
5. Coordinate and assist in the evaluation process of STEM program initiatives, partnerships, and opportunities for faculty and students; contribute to the development of performance assessments; participate in development of and help implement processes, policies and procedures for these opportunities; establish schedules; review and update forms, materials, and systems; make recommendations for improvements as necessary.

6. Coordinate the implementation and delivery of STEM program initiatives, partnerships, and opportunities including generation of proposals, documentation, scheduling, delivery, venue and logistics coordination, and other follow-up; serve as a point of contact for partners, faculty and staff.
7. Collaborate with Academic and Student Services Divisions including the Career and Transfer Center to integrate STEM program initiatives, partnerships, and opportunities.
8. Develop materials for dissemination to the college, public agencies, community services organizations, and other interested groups; develop materials for web presence.
9. Attend conferences, workshops, and regional meetings as appropriate to STEM program initiatives, partnerships, and opportunities.
10. Represent the college in various community and industry outreach activities and workshops; serve as contact for STEM program leads.
11. Assist with the supervision of student assistants.
12. Assist with budget monitoring and reporting.
13. Perform related duties as required.

MINIMUM QUALIFICATIONS

The following generally describes the knowledge and ability required to enter the job and/or be learned within a short period of time in order to successfully perform the assigned duties.

Knowledge of:

1. Principles and practices of program planning and implementation.
2. Principles, practices, and procedures of business letter writing and report preparation.
3. Pertinent State, District, and College policies, procedures, and regulations.
4. Problem solving techniques and resources.
5. Principles, practices, and procedures of fiscal, statistical, and administrative record keeping. Principles and practices used to establish and maintain files and information retrieval systems.
6. Office procedures, methods, and equipment including computers and applicable software applications such as word processing, spreadsheets, and databases.
7. Principles and techniques used in public relations.
8. Research methods and techniques.
9. English usage, vocabulary, spelling, grammar, and punctuation.
10. Basic mathematical and accounting principles.
11. Interpersonal skills using tact, patience, and courtesy.
12. Oral and written communication skills.

Program Coordinator – Science, Technology, Engineering, and Math (STEM) [Continued]

Ability to:

1. Coordinate and direct programs, activities, and operations of STEM program initiatives, partnerships, and opportunities.
2. Carry out work objectives in an organized, efficient, and timely manner without immediate supervision.
3. Perform detailed, complex, and specialized technical, programmatic, and administrative support duties involving the use of independent judgment and personnel initiative with speed and accuracy.
4. Recommend and implement goals and objectives for providing various programs and operations.
5. Understand, interpret, and apply general and specific administrative and departmental policies and procedures as well as applicable federal, state, and local policies, laws, and regulations.
6. Research information using own initiative; organize, assimilate, and analyze information.
7. Respond tactfully, clearly, concisely, and appropriately to requests and inquiries from the general public, students, District staff and faculty, or other agencies.
8. Prepare a variety of clear and concise reports.
9. Plan and organize work to meet schedules and changing deadlines.
10. Work under steady pressure and frequent interruptions as well as a high degree of public contact by phone or in person.
11. Operate office equipment including computers and supporting word processing, spreadsheet, and database applications.
12. Adapt to changing technologies and learn functionality of new equipment and systems.
13. Utilize tact, patience, and courtesy to provide the highest level of customer service.
14. Analyze situations and problems, identify alternative solutions, project consequences of proposed actions and implement recommendations in support of STEM program goals.
15. Establish and maintain various data collection, record keeping, tracking, filing, and reporting systems.
16. Plan, organize, implement, coordinate, and evaluate programs.
17. Deliver presentations to college administrators, faculty, staff, K-12 schools, government and private industries, and community organizations.
18. Work independently and effectively in the absence of supervision.
19. Communicate clearly and concisely, both orally and in writing.
