Hi Vicki,

3D Fab Light is the OEM sole-source supplier of a metal laser cutter in this size, functionality, and price. To the best of our knowledge, for a metal laser cutter manufactured in the U.S., we sell the only machine that:

- Has a 2-foot by 4-foot cutting area for sheets,
- Has an integrated rotary for cutting round, square, and rectangle tubes,
- Runs on 110V 20A outlet,
- Is priced under US\$140,000.

Let me know if you need anything else from us.

Cheers,
