Re: Donation of Fire Truck to Tracy High School

To whom it may concern,

The purpose of the donation will be to help prepare students for a number of careers in the Fire Service by aligning lesson delivery with the CTE Emergency Response standards. The donated fire engine will help students gain critical knowledge of fire service skills through hands-on training simulations thus setting a foundation for further professional education at the post-secondary level. By helping facilitate lesson delivery that is aligned to the CTE standards, the donated fire engine will also help increase the percentage of students earning credit towards high school diploma.

Details of the gift 1974 Van Pelt Emergency Fire Truck VIN# D806VV12949, and has about 100K miles. Estimated value is about \$500.
