Koret Foundation Planning Grant

Koret Foundation \$50M High Education Initiative

“We believe that a college education has become ever more important—both for individual success and for the success of our society as a whole.”

\$350,000 planning grant to CSUEB and CLPCCD provides funds to develop an innovative intersegmental partnership that explores deeper equity linkages across our campuses in a support network adaptive to student educational needs, creating seamless pathways and services designed to meet students’ educational goals and increase equitable higher ed outcomes.

East Bay College Agile Network (CAN)

Goal

Produce an equity-centered network design between CUSEB and CLPCCD focused on greater transfer agility, supporting students to find their best path forward to include dual enrollment, opportunities to complete programs on each campus, and coordinated support across the network to reach higher ed completion.

East Bay College Agile Network (CAN)

Objectives

1. Engage the campuses in broad conversations to build an intersegmental network focused on equity and successful student outcomes.
2. Strengthen information and transfer processes exchange by establishing leadership through CAN Teams.
3. Identify and gather information and best practices from promising peer initiatives.
4. Develop a technology infrastructure to better share and use information to support increases in equitable student success.
5. Begin with first project of an Agile Pathway from CSUEB to Chabot and Las Positas Colleges as an example of the Agile Network concept.

Agility Pathways Concept: focused on completion

-  Cal State East Bay lower division student
-  Cal State East Bay upper division student
-  Chabot College student
-  Las Positas College student

Planning Year funded by Koret Foundation

- Engaged intersegmental Teams
- Learning from promising peer models
- Examined capacity to share data across technology systems
- CSUEB messaging to identified student populations

Team Structure and Charges

We are convening four (4) intersegmental project teams with the following charges:

1. **Technology/Data Team** design and implementation of data analytics and data sharing among the campuses.
2. **Pathway Mapping Team** map catalog connections and equity-focused alignment, articulating degree pathways, and developing flexible roadmaps (guided pathways) through curriculum connections among the campuses.
3. **Systems and Support Team** design a shared seamless transfer system including dual enrollment and tiered enrollment that enhances student support and movement between campuses and is intentional about effective equity practices.
4. **Communication/Public Relations Team** developing a messaging campaign to educate students and student support services personnel of the pathway and degree options available through this collaboration.

Desired Outcomes Through Teamwork

1. **Develop the Agile Network Plan**, a scalable equity model that improves students' success across all demographics, leverages learning and support services and spaces on each campus, and fosters an expandable regional partnership.
2. **Integrated Pathways** to further articulate shared pathways among the three campuses to reduce barriers and support students' goal orientation and focus, increasing order to increase the number and diversity of students reaching higher ed goals.
3. **Coordinated Workflows** to ensure transfer processes are seamless and predictive analytics can support students on each campus.
