at the District office. VC Letcher stated that currently there is no need for an Emergency Call Box at the District campus or the District Services office parking lot.

Trustee Gin stated we need to remind ourselves to thank the voters that approved Measure A and B, which have resulted in the new facilities that can meet the demands of our students.

Trustee Gin asked if projects have moved ahead quicker through this pandemic. VC Letcher stated other agencies have cancelled their projects, which has been a benefit to us in allowing us to move ours forward. Trustee Gin thanked VC Letcher and his team for continuing to do a great job.

Trustee Granger thanked VC Letcher for the presentation. She asked with our facilities being empty how many projects have moved ahead of our initial schedule. VC Letcher stated four projects have moved ahead of our original schedule. He added five other projects have been able to continue on their original schedule even though we switched to a remote environment. He stated due to the pandemic, they have seen a faster turn-around from the State Architects.

Trustee Granger stated she appreciates the teams' effort to move the projects forward; as we know prices tend to escalate during construction the longer it takes.

Trustee Heredia commended the team for working so diligently on our new facilities. She asked what impact will the educational and strategic master plan have on the bond program and how will it align. VC Letcher stated we completed our facilities master plan in 2018 and began our educational masterplan in 2020 to update our educational master plan. He added, our educational master plan may have some changes that are driven in the educational program interface that will need to be reflected in our facilities masterplan. He stated as they wrap up the education master plan with a district wide strategic plan, they will go back and review the facilities masterplan and bring before the Board to review and approve. He stated all planning is linked together; it is a process of continual improvement and continual planning updates.

Trustee Maduli thanked VC Letcher for his thorough presentation. He asked how much of the first series sale of \$150 million dollars has been extended. VC Letcher stated as of December 30, 2020 between \$75-\$78 million dollars. He added we have encumbered an additional \$50 million dollars in funds associated with that original bond sale.

Trustee Maduli asked what is being considered in-terms of time frame for the bond sale and what will be the size of the second series. VC Letcher stated we have approximately \$250 million dollars' worth of work. He added that depending on the schedule out of DSA, we are likely up to three to eight months to request our additional bond series money.

Trustee Maduli asked if we need \$250 million for our second bond series. VC Letcher stated yes.

Trustee Maduli asked how much the voters approved for Measure B. VC Letcher stated in 2010 the voters approved \$498 million dollars. He stated since 2010, we have received approximately \$100 million dollars in interest and now have a total of \$597 million dollars. Trustee Maduli asked is that the unpaid commitment part of the remaining budget or is that available \$7.9 million dollars. VC Letcher

stated those funds are associated with projects we already have contracted out. Trustee Maduli asked if Las Positas College has expended all of their Measure B funds. VC Letcher stated yes, Las Positas College has achieved their spend down, Chabot College and the District-wide program level services has a balance.

Trustee Reynoso expressed his concerns about change orders and asked if there is a change order report and how are they being authorized. He stated monthly change orders regarding scheduling and budget are brought before the Board. He stated once a project is complete the Board is provided a detailed report on the final costs.

Trustee Reynoso expressed his concern about getting our students back into the classrooms. He stated he is pushing for a tax rebate in Hayward.

Trustee Sbranti thanked VC Letcher and everyone that is involved including the voters and taxpayers for their support to allow these projects to happen. He stated his goal is to have students in the Biology building pandemic allowing in the fall.

Trustee Sbranti asked is there LEED certification or a set of standards on technology security on all the projects we complete. VC Letcher stated we do have a series of standards and they identify our security systems that will go into the buildings. He stated the Board has adopted a standard that all new projects shall be LEED Silver Certified projects. He added this means going through the system and affirming we have achieved what we said we were going to achieve.
