

CHABOT-LAS POSITAS COMMUNITY COLLEGE DISTRICT

July 21, 2009

Agenda Item: 5.8

Subject: Approval to Purchase Trash and Recycling Receptacles from Forms + Surfaces, Chabot College and Las Positas College

Background: Planned construction under Measure B contained design standards for the different aspects of the various projects. One such standard was developed for new trash and recycling receptacles.

To date, a certain number of the standard trash and recycling receptacles have been purchased and installed. The remaining needed units are ready to be purchased. The total cost of these units is \$109,000, exceeding the contracting authority of staff and requires Board approval. Although the standard design chosen by the District is manufactured by only one firm and bidding is not possible, quantity discounts have been obtained.

Recommended Action: That the Board of Trustees approve the Purchase of Trash and Recycling Receptacles from Forms + Surfaces of Pittsburg, Pennsylvania in the amount not to exceed \$109,000, including taxes for Chabot College and Las Positas College.

Funding Source: Measure B Bond Funds
