

CHABOT-LAS POSITAS COMMUNITY COLLEGE DISTRICT

August 15, 2017

Agenda Item: 4.3

Subject: Approval of Letter of Affiliation Agreement with the Community College Foundation Student Internship Program, Chabot College

Background: In 1987, The Community College Foundation created and implemented a student internship program that provided paid internships to college students in governmental and private industries. Since its inception, the intern program has recruited, hired, and managed over 30,000 student interns. In accordance with Government Code 19133, The Foundation works directly with State agencies to manage their student assistant programs as they face the ever increasing need for bright and talented individuals for their current and the future. The Foundation is in the process of reaffirming relationships with colleges and universities throughout California to increase the hiring pool for the State and private industry contracts. The Foundation will provide information on Foundation student internship opportunities in the college's service area to provide internships that match and enhance students' areas of studies. Chabot College will not incur any expenses associated with this program.

Recommended Action: That the Board of Trustees approves the proposed Letter of Affiliation Agreement with the Community College Foundation Student Internship Program, Chabot College. It is further recommended that the Board authorize the Vice Chancellor, Business Services, to execute the agreement on behalf of the District.
